- (1) US Network agreement is incorporated in the wholesale tariff and services are purchased from the tariff
- (2) Will supersede previous agreement
- (3) Indicates an amended agreement
- (4) Commission order approving agreement issued 11/21/95 and the agreement conforming to that order was filed on 12/22/95
- (5) Initial agreement approved by commission on 1/9/97 with several requested changes. Revised agreement was refiled on 2/12/97
- (6) In Michigan, negotiated agreements (N) are signed and filed with the PSC which then issues an order approving the agreement with any changes the PSC might recommend. The agreement is then refiled to conform with the PSC's order. (In this case the filed date shown above would be later than the approval date.) For arbitrated agreements (A), the PSC issues an order approving a form of the agreement. The parties then refile the agreement to meet the requirements of the PSC's order and the PSC will issue an order indicating the revised agreement meets the conditions of its earlier order. (This procedure was established on a going forward basis beginning with the AT&T agreement.) The dates listed above reflect the following information:
  - For a negotiated agreement the Filed Date is either the date an application was made to the PSC for approval of a negotiated agreement or, if the PSC's order approving the agreement required changes to the agreement, the date when the agreement was refiled in response to the order. The Filed Date for an arbitrated agreement is the date when the parties refile the agreement in response to the PSC's order approving the form of agreement.

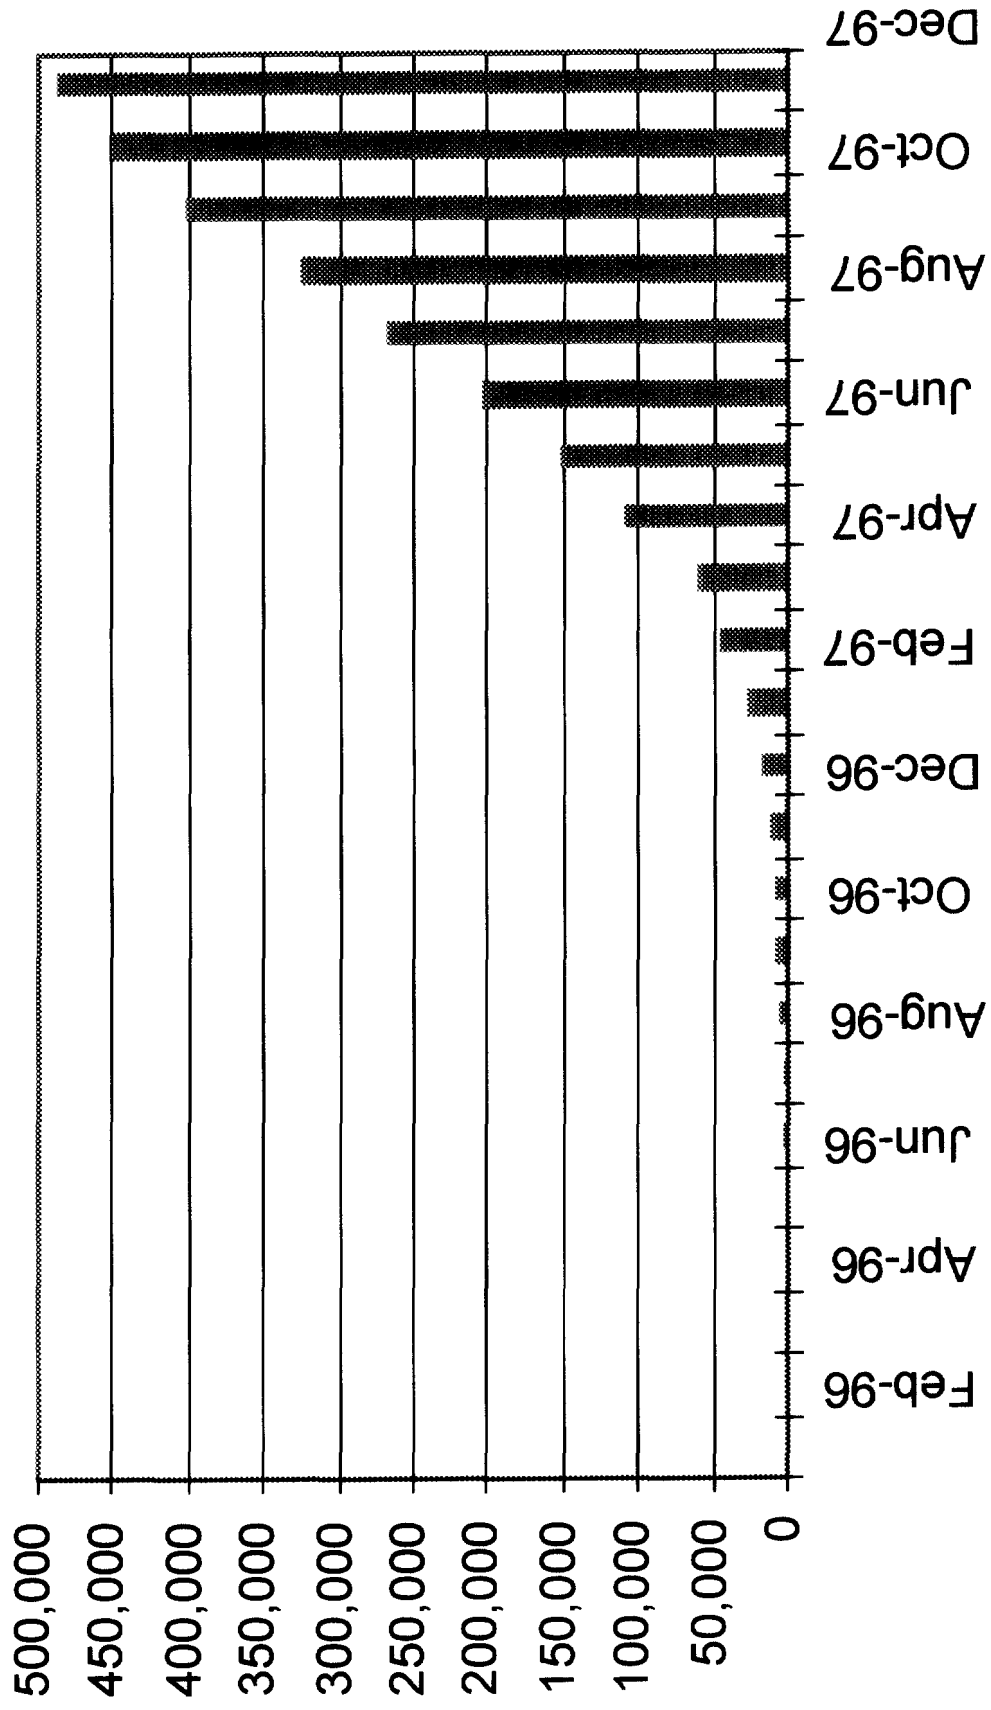

- Approval Date for a negotiated agreement is the date when the PSC actually approves the agreement. For an arbitrated agreement this is the date when the PSC approves the agreement which was refiled in response to their order approving the form of agreement.
- (7) Reflects the effective date shown on the first page of the contract.
  - (8) 3/27/97 revision to Local Competition Guidelines makes negotiated agreements effective upon filing. Agreements will automatically be approved on the 91st day after filing unless the Commission orders otherwise.
  - (9) Addendum No. 1 filed 12/13/96 and approved 2/12/97
  - (10) Effective 15 days after Commission approval
  - (11) Interim agreement
  - (12) Interim agreements in Wisconsin were not subject to PSC approval
  - (13) Also have an agreement on Poles and Conduit filed 6/25/97. Resale agreement executed 6/16/97 and filed 7/9/97
  - (14) Parties have not agreed on a contract to implement Panel's award.

As of November 1997

# **Attachment C**

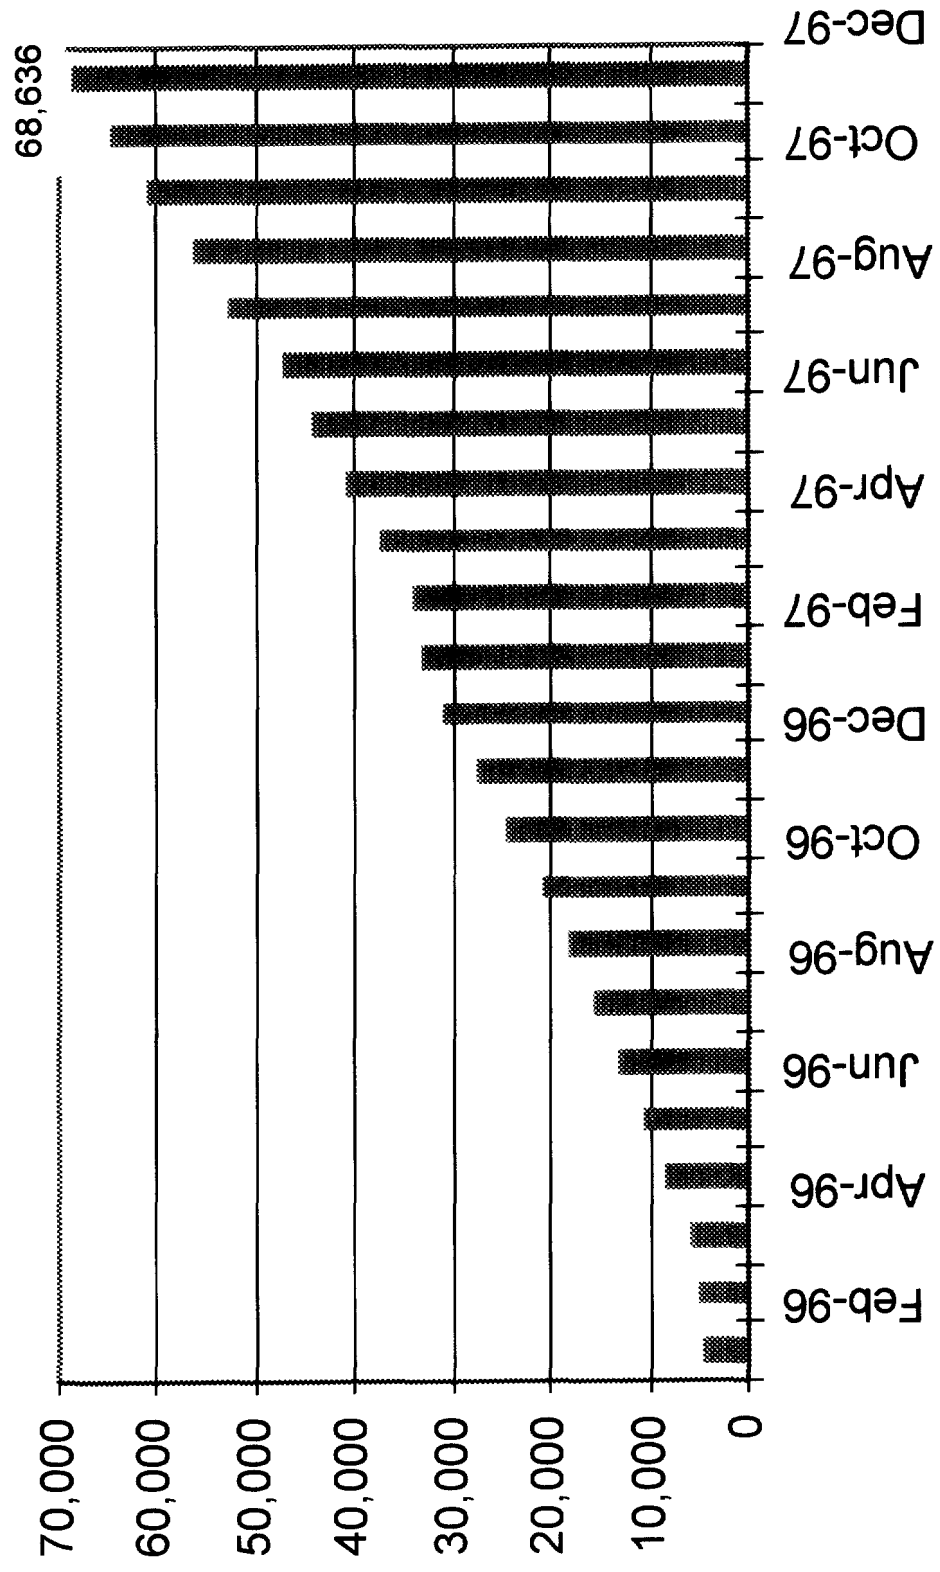

**Resold lines -- Ameritech served region**

489,174

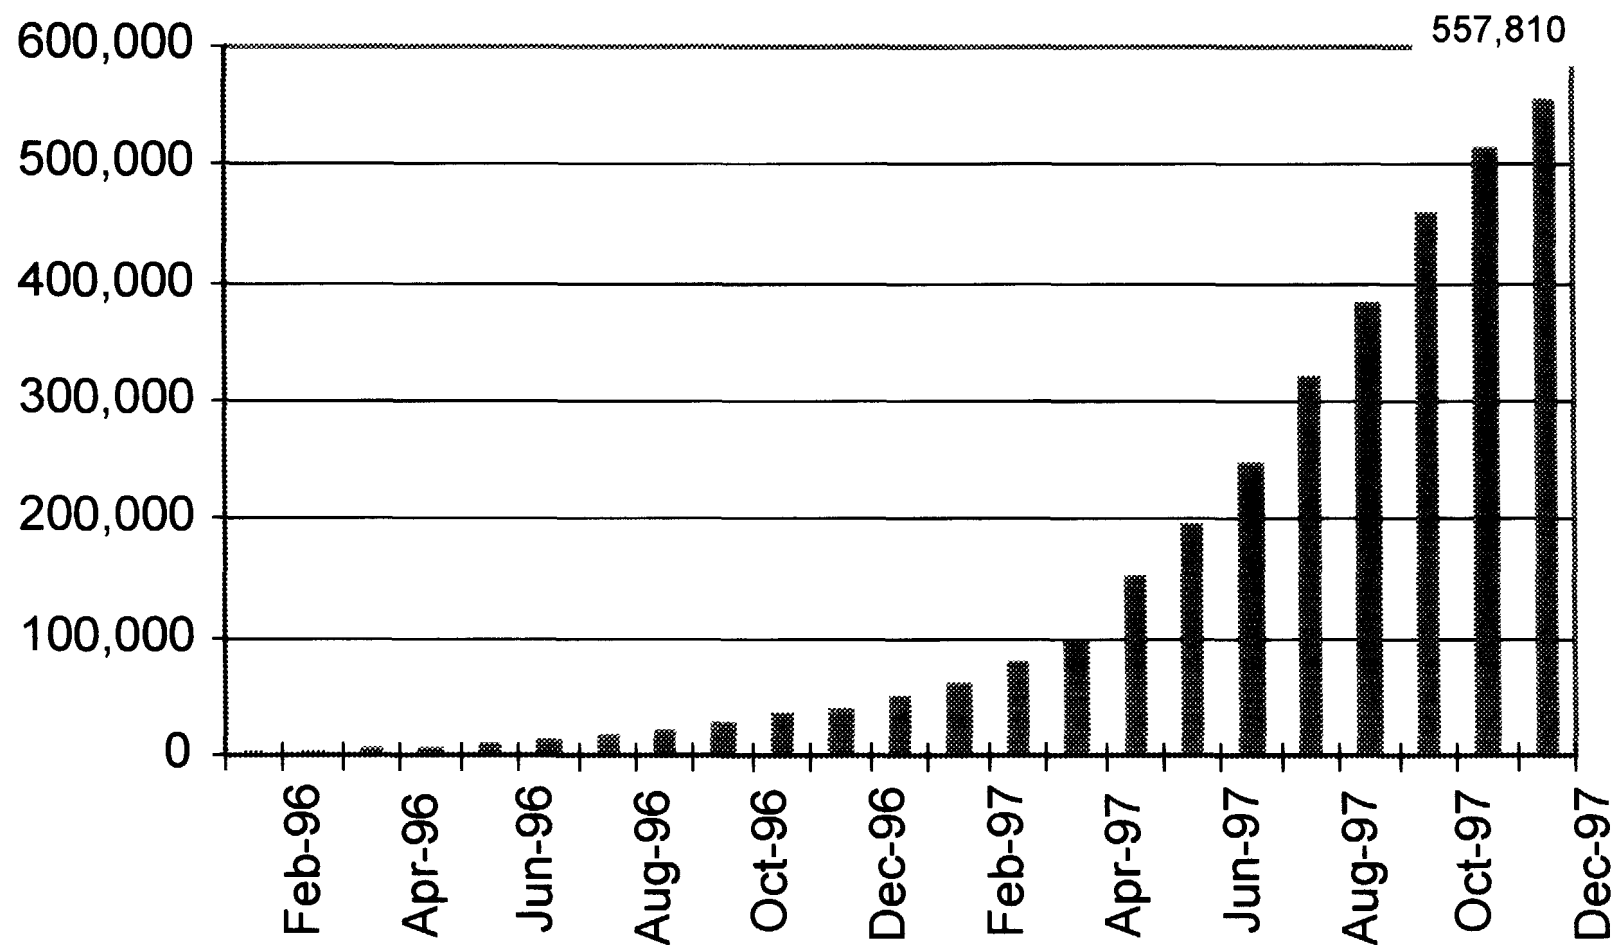

Excludes Centrex lines

# Unbundled loops -- Ameritech served region

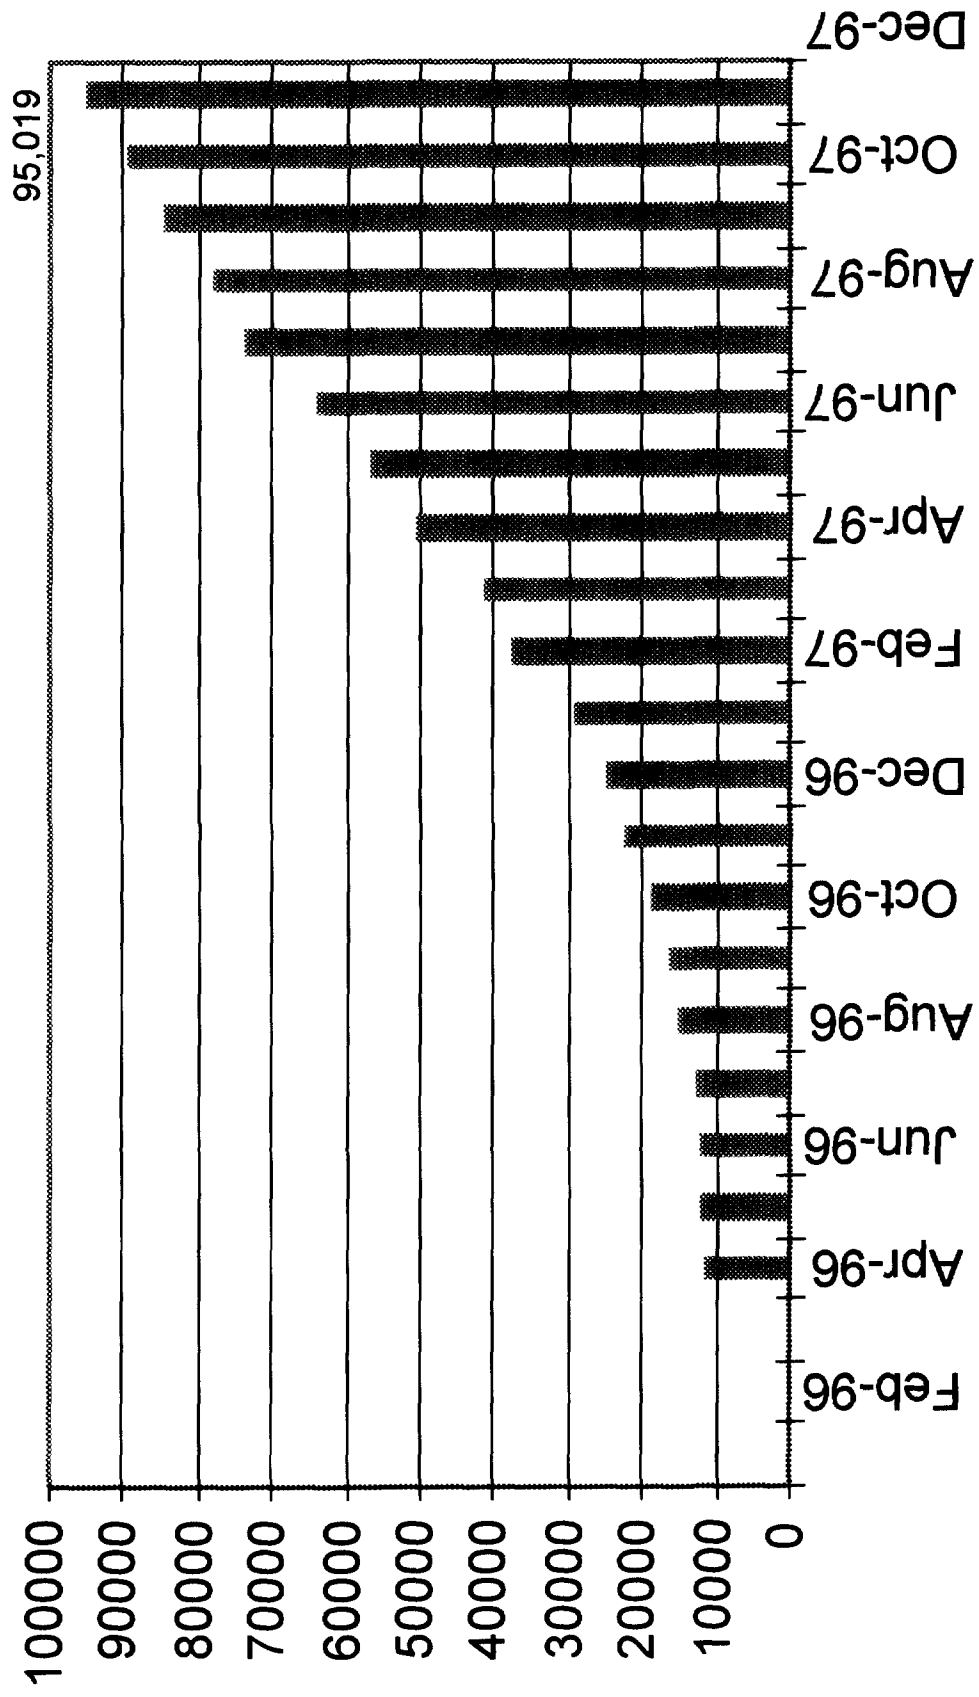

## Competitor lines in the Ameritech served region (excluding CLEC self-provisioning)

Excludes Centrex lines

End office integration trunks -- Ameritech served region

CERTIFICATE OF SERVICE

I, Edith Smith, do hereby certify that a copy of the foregoing Opposition of Ameritech has been served on the parties listed below first class mail, postage prepaid on this 30th day of January, 1998.
